

An Official photographer is required for the AEJF web site. This is a prestigious opportunity. There is no pay; candidates will supply their own digital camera, their own PC and their own transport. Refreshments maybe provided for the right candidate.

Initially you will work in partnership with our IT guru to select and post appropriate photos onto the AEJF gallery page. The successful candidate will receive training and support to manage the gallery.

This is a wonderful opportunity for a parent or retired or retiring judoka. Job share is available with one partner working in the field taking the photos, whilst the other works from home processing and downloading the photos.

The AEJF is an equal opportunities employer (everyone has the equal opportunity to contribute to the running of the organisation for no remuneration.)

Seriously if you enjoy photography we do need someone to take appropriate photos that can be posted on our web site - to promote the accomplishments of our judoka and the activities of our organisation. So long as you can take digital photos and send them to an email address we will do the rest (for now). As this post involves working with children potential AEJF photographers must have a CRB check.
